Message from our Founder

Kavita Rawat

At NavvKhush Helping Foundation, we believe that awareness is the first step towards protecting children and creating opportunities for a better future. Through initiatives that promote education, child rights and protection, we strive to empower children to understand their rights, express themselves confidently and grow in a safe and supportive environment. Our Child Rights & Awareness Workshop was a meaningful step towards creating this awareness among young girls. We are grateful to our partners, volunteers and everyone who continues to support our efforts to build a future where every child can learn, grow and dream without fear or exploitation.
